

# **EUBerry seminar and work shop at Bioforsk, Stjørdal, Norway 24-25 September 2013**

---

The seminar "WG2 related topics- Improved cultivation technique of berries" was welcomed by the Director of Bioforsk, Kvithamar Erik Revdeal, and continued through 16 lectures of thematic within Pest and Diseases, Season extension, Fruit and Plant quality and Growing Technique. Besides attendants from EUBerry partners the seminar had 10 attendants from extension, science and the Norwegian berry industry.

The Work Shop the following day was attended by 15 scientists representing six WP2 partners and one subcontractor, and one partner representing WP4 to communicate interactions between WP2 and WP4.
